Front-End Developer

This test is to build a site header using HTML, CSS, and JS. The aim is to get a feel for your coding ability, your attention to detail and how you take on a project. This test is intentionally open to interpretation so please let us know any assumptions you make and write notes to help explain what you have done.

You can view the designs on Figma, at the following link:

<https://www.figma.com/proto/OzYLXeOIh1p4LMWFov6XXa/Pure-Booch>

The designs are desktop only so please create a mobile version as you feel works and looks the best.

Make sure all icons are inline SVGs.

Deliverables

- Please send us the test using CodePen (<https://codepen.io>) or alternatively as a Zip file.
- An explanation of what you did, why you did it and any notes or assumptions you have made.
